BERLIN, July 6.-There are growing signs of an impending storm in the Balkans. The situation is so grave that officials of the foreign offices have been stopped. A momentous change appears to have occurred in Germany's Belkans. Instead of pursuing the semi-neutral diplomatic policy of Prince Bismarck, the Emperor has decided Herr Radowitz to take the initiative, advising the Porte how to meet the contending claims of Bulgaria and Russia. The Emperor's scheme of CAMP CARNAHAN OCCUPIED BY settlement, according to the accepted report in diplomatic circles, involves the substitution of Prince Karl of Sweden as the ruler of Bulgaria in his stead, and also the arrangement of the Russian indemnity by capitalizing the amount through the internal council of administration which now controls the Turkish loans. The scheme seems to have received impetus from Emperor Williams' conference with Prince Oscar, at Christiana.

The renouncing of Prince Bismarck's visit to England is due to the altered aspect of foreign affairs. He will go to his estates at Schoenhausen and thence to Gastein, where Count Kalnoky, the Austro-Hungarian prime minister, will also recruit his health. After recovery, the Hamburger Nachrichten says, Bismarck will enter the Reichstag.
